Research News and Highlights

This year we are thrilled to continue working with the Northeastern Institute for Health Equity and Social Justice Research, who have generously awarded a Health Equity Scholarship to Dr. Rodgers for an evaluation of our Reel2Real program!

We have also received an award to study the effects of social media images on both men and women, so look out for some exciting findings there!

Congratulations!

- Congratulations to **Alice Lowy** who successfully defended her dissertation titled «Internalization of Beauty Ideals and Eating Pathology in Black and White Women.»

Meetings here and there...

Thanks to being on sabbatical, Dr. Rodgers has had the opportunity of visiting and learning from some of our international collaborators

In October, she visited Dr. Mika Omori and her team in Tokyo, they worked together on their research interests related to healthy eating and the food environment.

APPEAR and WGSS

This year is also an occasion for APPEAR to strengthen its ties with the Women's Gender and Sexuality Studies program here at Northeastern, and we are particularly grateful to be using their beautiful space for our meetings currently.

Save the date for their symposium March 19th, and hope to see many APPEAR members there!
