Version 42.0 Zoning Ordinance Last Update: 5/05/23, 2022 Released: November

Village Center Overlay District (VCOD)

Introduction

The City Council Zoning and Planning Committee (ZAP) kicked-off the project to revise Newton's Zoning Ordinance for village center commercial centers in early 2021. The <u>firstsecond</u> draft zoning ordinance below, "version 42.0," represents a <u>multi-yearthe continued</u> collaborative effort with the City Council, City staff, urban design & economic development consultants, and the Newton Community.

Why is this necessary? While Newton has a strong foundation of diverse and dynamic village centers, the current zoning one-size-fits-all format does not recognize this. This draft set of zoning rules, along with the version 1.0 zoning maps, build upon the successes and uniqueness of each village center, while also guiding development that addresses our current and future needs. In other words, the zoning is the technical tool that supports the community vision like helping small businesses thrive, responding to climate change, developing more diverse & affordable housing, and creating more communal & active spaces.

How to read this Document

Like the draft maps, the draft zoning ordinance is intentionally meant to be reviewed and updated. This is also a working document, with some. Some items may not be fully resolved. Footnotes are used for sections that need more work, where questions remain, or when additional explanation is needed and other items may require further refinement in advance of a vote to adopt this zoning ordinance.

Version 42.0 Zoning Ordinance Last Update: 5/05/23, 2022

- 1. Applicability.
 - 1.1. General
 - A. The provisions of Article # shall apply to all real property within a defined Overlay District as shown on the Newton Zoning Map. It is intended that the provisions of these Overlay Districts will modify the form, location, and use of buildings by applying special dimensional, use, and other standards in a variety of areas in the City tailored to those specific areas and relevant policy objectives. Overlay District provisions may be voluntary or required based on the following criteria:
 - Where a site has not been previously reviewed and developed under an Overlay District, development may occur in accordance with the underlying zoning district or the Overlay District. Submittal for an Overlay District development application shall be voluntary.
 - Where development activity for a given site was reviewed and approved as part of any Overlay District, but a building permit has not been issued by the City of Newton, future review for development applications on the site may either be under the Overlay District or those of the underlying zoning district.
 - Where development activity for a given site was reviewed and approved as part of any Overlay District, and a building permit has been issued by the City of Newton, any future development applications shall be reviewed in accordance with the procedures and standards of the Overlay District.
 - B. Conflicts. If the applicant chooses development under an Overlay District, and where conflicts exist between the Overlay District and the rest of the City of Newton Zoning Ordinance, the Overlay District regulations shall apply.
- 2. Village Center Overlay District (VCOD)
 - 2.1. District Intent.
 - A. Allow the development of buildings and uses appropriate to Newton's village centers, areas immediately adjacent to village centers, transit-rich areas, and aligned with the vision of the City's Comprehensive Plan and other policy documents.
 - B. Encourage development that fosters compact, pedestrian-oriented villages with a diverse mix of residences, shops, offices, institutions, and opportunities for entertainment.
 - C. Allow sufficient density and intensity of uses to promote a lively pedestrian environment, public transit, and variety of businesses that serve the needs of the community.
 - D. Expand the diversity of housing options available in the City.

⁴ The VCOD is designed to be an "opt in" overlay district.

Village Center Overlay District (VCOD)

- E. Promote the health and well-being of the community by encouraging physical activity, use of alternative modes of transportation, and creating a sense of place.
- F. Facilitate compliance with the multi-family zoning requirement for MBTA communities pursuant to M.G.L. Chapter 40A, Section 3A.

2.2. District Purpose.

The Village Center Overlay District (VCOD) has been divided into threefour (4) distinct tiers of districts:

- A. Multi Residence Transit (MRT). The MRT District facilitates new small-scale multi-family buildings similar in size to the surrounding residential neighborhoods and the preservation of existing homes through conversion to multiple units. This district acts as a transition between the mixed-use cores of village centers and surrounding residential neighborhoods.
- A.B. Village Center 1 (VC1). The VC1 District facilitates small- to medium-scale multi-family buildings given its location along major corridors and proximity to amenities, mixture of uses, and transit options found in Newton's village centers. This district acts as a transition between the mixed-use cores of to link certain village centers and the surrounding residential neighborhoods. allow for neighborhood serving retail along key corridors and intersections.
- B.C. Village Center 2 (VC2). The VC2 District facilitates mixed-use and residential development of moderate scale. This district serves as the core of some village centers and as a transition district for other village centers. Buildings are typically set close to the sidewalk to create a defined street wall that supports pedestrian activity and a sense of place. Ground story active uses address the needs of residents and employees in the immediate neighborhood as well as the larger Newton Community.
- C.D. Village Center 3 (VC3). The VC3 District facilitates mixed-use development of moderate- and large-scale. This district serves as the core commercial zone of certain village centers, particularly those with access to mass transit. Buildings are typically set close to the sidewalk to create a defined street wall that supports pedestrian activity and a sense of place. Ground story active uses address the needs of residents and employees in the immediate neighborhood, the larger Newton Community, and regional visitors.

2.3. Definitions

In addition to the definitions found in Article 8 Definition, the following definitions apply. Where conflicts exist between the Overlay District definitions and definitions within the rest of the City of Newton Zoning Ordinance, the Overlay District definitions shall apply.

- A. Awning. A roof-like covering of canvas or other material attached to a metal or other frame and supported entirely from a building or other structure.
- B. Balcony. An unenclosed platform with a railing that provides outdoor amenity space on upper stories.

- C. Basement. See Section 1.5.4.D.
- D. Bay. A Bay is a window assembly extending from the main body of a building to permit increased light, provide multi-direction views, and articulate a building wall. Two Bays can connect around corners to create distinctive living space or terminate in an important axis.
- E. Build To Zone. Area between the minimum and maximum front setbacks.
- E. Bicycle Parking, Long-Term. Accommodations for the parking of a bicycle for two (2) or more hours.
- F. Bicycle Parking, Short-Term. Accommodations for the parking of a bicycle for two (2) hours or less.
- F.G. Building Footprint Area. Area of the largest above grade floor of the building as measured to the exterior faces of the walls, including decks ever surface parking areas that extend more than 8' from the building face.
- G. Canopy. A wall-mounted structure that provides shade and weather protection over a storefront or building entrance.
- H. Development. The subdivision or land platting of a development site; the construction or modification of any principal building type, accessory building type, or other structure; the excavation, fill, or grading of land. and the establishment, change, or expansion of any use of any structure or land.
- Facade Build Out Ratio. The ratio of the width of the entire Front Elevation to the Lot Width along the Primary Front Lot Line.
- J. Frontage Area. The area of a lot between the building facade(s) and any-front lot line(s), extending fully to each side lot line(s).
- K. Frontage Type. A distinct combination of façade and frontage area design features.
- L. Front Elevation. The exterior wall of a building oriented in whole or in part toward the public right of way.
- M. Furnishing Zone. The portion of the sidewalk between the curb and the walkway that is used for street trees, landscaping, transit stops, street lights, and site furnishing.
- N. Lot Line. See Section 1.5.2.A.
- O. Lot Line, Front. The lot line abutting a street or right of way.
- P. Lot Line, Side. Any lot line other than a front or rear lot line.
- Q. Lot Line, Rear. Any lot line which is parallel to or within forty-five (45 degrees) of being parallel to a front lot line, unless that lot line is a side lot line of an abutting lot.
- R. Lot Width. The length of the front lot line of a lot.
- S. Mixed-Use Priority Street. A portion of street that requires ground story active uses within the VCOD tiers as shown on the Newton Zoning Map.
- S.T. Open Space, Usable. See definition in Article 8.
- T.U. Party Wall. A wall separating two attached buildings.
- V. Primary Front Lot Line. The lot line abutting a street or right of way. Where there are multiple lot lines abutting streets or rights of way, the Primary Front Lot Line shall be the one the main entrance faces. Where there are multiple lot lines

Village Center Overlay District (VCOD)

abutting streets or rights of way and the main entrance does not face a street or right of way, the Primary Front Lot Line shall be determined by the Commissioner of Inspectional Services or their designee.

- <u>U.W.</u> Principal Entrance. The addressed entrance to a building or commercial space.
- X. Rear Lot. A rear lot is defined as a parcel of land not fronting or abutting a Street and which has limited access to a Street by either:
 - 1. A "flag pole" or "pan-handle" shaped portion of the lot,
 - An easement over an adjoining lot possessing frontage directly on the street, or
 - 3. A private right-of-way as shown or described in plans or deeds duly recorded with the Registry of Deeds for the Southern District of Middlesex County.
- Y. Residential District. Residential districts include lots located in the Single Residence (SR), Multi Residence (MR), and Multi Residence Transit (MRT) zoning districts.
- Z. Retaining Wall. See Sec. 5.4.2.A.
- V.AA. Screening. See Section 5.1.9.

 #.
- W-BB. Step-Back. A recess of an upper story façade a set distance behind the façade of the story below.
- X.CC. Story. See Section 1.5.4.
- Y.DD. Story, Ground. The lowest story of a building with a finished floor at or above the finished ground level next to a building at the facade.
- EE.Story, Half. See VCOD Section 2.6.B.3
- Z.FF. Story, Upper. Any full story above the ground story of a building.
- AA. Substantial Renovation. Any modification, interior renovation, or both of an existing principal building that exceeds fifty percent (50%) of the assessed value of the building, as identified on the most recent tax list maintained by the Assessor's Office of the City of Newton, within any twelve (12) month period.
- BB.Transit Area. All lots within one quarter (1/4) mile of a transit station within the VCOD as shown on the Newton Zoning Map.
- CC.GG. Transit Station. Any existing or planned station of the MBTA's light rail and heavy rail rapid transit lines within the City of Newton as Shown on the Newton Zoning Map.
- 2.4. Development Review
 - A. Applicability.
 - The density and dimensional controls in Sec. # apply to all buildings, structures and uses in each of the listed VCOD classes, except as exempted in this ordinance.
 - 2. Where buildings, structures, or uses do not meet these standards they are nonconforming (See Sec. #).²

² The Law Department is currency reviewing how the overlay district will handle non-conformities.

B. Approval Process.3

Development on any lot, by-right or by Special Permit, requires the submissionsubmittal of development review materials as required in Article 7, except as modified herein. A pre-submittal discussion or meeting with the Planning Department and/or Inspectional Services Department is recommended for all development.

- 1. Special Permit Required. A Special Permit is required for any:
 - 4.i. Any Development in the Village Center 1, 2, and 3 districts on a lot larger than thirty-thousand (30,000) square feet. The City Council is the decision-making authority for all development that requires a Special Permit., except as modified through Adaptive Reuse (see Sec. #).
 - ii. Site Plan Review Required. The construction of multiple buildings in the Multi Residence Transit district (MRT), except as modified through Adaptive Reuse (see Sec. #).
 - iii. The City Council is the decision-making authority for all development that requires a Special Permit, except as modified in this ordinance.
- 2. Site Plan Review is required for any:
 - i. Any development in the Village Center 1, 2, and 3, and Multi

 Residence Transit (MRT) districts on a lot larger than twentythousand (20,000) square feet but less than thirty-thousand
 (30,000) square feet—, except as modified through Adaptive

 Reuse (see Sec. #).
 - The Planning Board is the decision-making authority for all development that requires Site Plan Review.
- 2.5. Dimensional Standards⁴

³ A Special Permit is only allowed where explicitly stated.

⁴ The VCOD primary dimensional controls are building footprint, maximum height/number of stories, roof form, and setbacks. Controls in other parts of the code (FAR, Lot Area Per Unit, Minimum Lot Size, etc.) do not apply.

9

- a. The Front Elevation must be built to any Front Lot Line(s) within the Build-To-Zone, at or between the minimum and maximum front setbacks, as specified in the Lot Standards for each VCOD tier.
 - i. The maximum front setback may be increased if providing Usable Open Space between the Front Lot Line(s) and the Front Elevation in the VC2 and VC3 districts.
- The Front Elevation must be built out to a percentage of the Lot Width as specified by the Facade Build Out Ratio in the Lot Standards for each VCOD tier.
 - The Facade Build Out Ratio may be met cumulatively by multiple buildings on a lot.
 - ii. Usable Open Space with Ground Story Active Uses is considered part of the building for the purpose of measuring the Front Elevation.²
- e.b. When development occurs on any lot abutting a sidewalk that is less than twelve (12) feet in total width, inclusive of the Furnishing Zone, buildings must be set back an additional distance such that a paved area meeting City sidewalk standards of at least twelve (12) feet in width is provided, inclusive of the Furnishing Zone.

 The minimum and maximum front setbacks are increased accordingly.
- 2. Number of Buildings
 - a. Multiple buildings are permitted on each lot-by-right, except;
 - A Special Permit is required in the MRT district for multiple buildings on a lot, except as modified through Adaptive Reuse (see Sec. #).
- 3. Building Separation
 - Multiple buildings on a single lot must comply with the building separation distance at all points as specified in Building Standards for each VCOD tier.
- 4. Open Space and Public Realm
 - a. Development on lots greater than 30,000 sf must provide Usable Open Space as specified for each VCOD tier.
 - In the VC2 and VC3 districts, the Usable Open Space must be accessible to the public.
 - c. Buildings must provide shared Usable Open Space as exterior spaces (patio, roof deck, roof terrace, yard, forecourt, plaza) that maintain attractive landscaping where it enhances the public realm, environmental sustainability, and/or the appearance of the site.
- 5. Rear Lots

⁷ This incentivizes public space along the street and varied building design.

Village Center Overlay District (VCOD)

 a. The City Council may grant a Special Permit for a Rear Lot in the VC1 and MRT districts.

6. Retaining Walls

a. The placement of a retaining wall of four (4) feet or more requires a special permit.

7. Street Hierarchy

 a. Mixed-Use Priority Streets are determined within the VCOD tiers as shown on the Newton Zoning Map.

4.1. Parking Placement

 Unloss otherwise specified, all parking spaces must be located at or behind any required parking setback as specified in the Let Standards for each VCOD tier.

B. Building Design Standards

This section provides an explanation of the dimensional standards for buildings within the VCOD tiers, defines how to measure certain standards, and provides other requirements and reference information as necessary.

1. Building Height

- a. Buildings must comply with the maximum building height specified for each building type. Building height is measured as defined in Section 1.5.4. Height.
- b. The City Council may grant a Special Permit to allow an increase as specified for each VCOD tier to the maximum Building Height by finding that the following criteria are met:

i. [reserved]8

2. Story Height

- a. The Ground Story of a building must comply with the minimum and maximum story height requirements specified for each VCOD tier and is measured independently for each story of a building.
- b. The height of the ground story and upper story(ies) of a building is measured vertically from the surface of the finished floor to the surface of the finished floor above, at all points.
- c. The height of a half story is measured vertically from the surface of the finished floor to the top of the highest roof beam above.

3. Number of Stories

- a. Buildings must comply with the maximum number of stories as specified in the Building Standards for each VCOD tier.
- The Ground Story is always counted as one (1) story, except that a single Ground Story over eighteen (18) feet in height is counted as two (2) stories.

⁸ Staff is exploring a Special Permit allowance of an additional one-story with specific criteria tied to an increase in affordable housing

- c. Any Upper Story is counted as (1) additional story, except that any
 upper story sixteen (16) feet or greater in height is counted as two
 (2) stories:
- e.d. Space located directly under a pitched roof is counted as a half (0.5) story, provided the following standards are all met:
 - At least two opposite roof planes are pitched toward each other
 - A pitched roof may be composed of roof planes with different slopes.
 - iii. The slope of any pitch must be no greater than 14:12 (49 degrees); otherwise, this story is counted as a full story.
 - iv. The roof rafters must intersect the wall plate or top of wall frame of the exterior walls at a height no more than two (2) feet above the finished floor of the half-story; otherwise, this story is counted as a full story.
 - v. Dormers must comply with requirements in Sec. 1.5.4.G.
- 4. Half-Story Step-Back for Flat Roofs
 - A required distance that certain upper stories of a building must be recessed from the plane of the facade of the stories below.
 - Required Step-Backs must be provided for all stories as specified in the Building Standards for each VCOD tier.
 - ii. Buildings on any lot with a Lot Width of Less than seventy (70) feet are exempt for the upper story Step-Back requirement along the Side Lot Line-(s), except when abutting a Residential District.
 - iii. Buildings on any lot with an average lot depth less than seventy (70) feet are exempt from the upper story Step-Back requirement along the Rear Lot Line, except when abutting a Residential District.
- 5. Building Footprint
 - a. Buildings must comply with the maximum Building Footprint as specified in the Building Standards for each VCOD tier. Building Footprint is measured as defined in Definitions.
 - b. Building Footprint includes all enclosed spaces whether for habitation or storage. Any parking area that is covered by a roof is included in the Building Footprint.
 - Bays, Awnings, Balconics, Portions of the building below the average grade and Canopiesnot visible from any right of way or adjacent lot line do not count towards the Building Footprint.
 - d. The City Council may grant a Special Permit to allow an increase as specified for each VCOD tier to the maximumBays, Awnings, and Balconies, do not count towards the Building Footprint-by finding that. See Sec. # Architectural Features.
- 6. Affordable Housing

Version 42.0 Zoning Ordinance Last Update: 5/05/23, 2022

Released: November

Village Center Overlay District (VCOD)

- a. Except as modified herein, the provisions of Section 5.11 Inclusionary Zoning shall apply to all developments in the VCOD.
- d.b. Bonus. To increase the supply of affordable housing, beyond the requirements within Newton's Inclusionary Zoning Ordinance, the following criteria building height and building footprint increases are metallowed within the VC2 and VC3 districts by-right:

i. [reserved]⁹

Affordable Housing Bonus			
	Opt	ion 1	Option 2
VCOD District	VC2	VC3	VC3
Building Height in Stories, (max.)	4.5	<u>5.5</u>	6.5
Pitched Roof, Building Height in Feet, (max.)	<u>72'</u>	<u>84'</u>	<u>96'</u>
Flat Roof, Height in Feet, (max.)	<u>66'</u>	<u>78'</u>	90'
Building Footprint, (max.)	<u>12,500 sf</u>	<u>17,500 sf</u>	<u>17,500 sf</u>

c. Standards

i. To utilize the affordable housing bonus in the above table, a development must fully comply with the provisions of Section 5.11, except the number of inclusionary units required shall be as follows:

Number of Inclusionary Units Required							
Option 1 Option 2							
Project Type	Rental	<u>Ownership</u>	<u>Rental</u>	Ownership			
Tier 1 (# of units)	<u>25%</u>	<u>25%</u>	<u>30%</u>	30%			
Tier 2 (# of units)	N/A	N/A	N/A	N/A			

⁹ It may be appropriate to tie the Special Permit increase in building footprint to additional affordable housing requirements as well.

Version 42.0 Zoning Ordinance

Released: November

<u>Last Update: 5/05/</u>23, 2022
Village Center Overlay District (VCOD)

	•				_
Area Median Income (AMI)	50-80%	<u>80%</u>	<u>50-80%</u>	80%	

- The portion of the development within 50' of lot line abutting a Residential District may not increase the number of stories or height.
- iii. Any VC3 parcel adjacent to a VC1 or Residential District may not utilize Option 2.
- 6.7. Ground Story Active Uses
 - a. Any lot with Mixed-Use building within the VCOD tiersPriority Street frontage must also provide ground story Active Use(s) space for a depth specified in each VCOD Tier, measured as the distance from the facade towards the interior of the building, for one hundred percent (100%) of the total width of the building along the Front Elevation. No more than thirty percent (30%) may be dedicated to semi-active accessory uses, as defined below.
 - b. Active Uses include:
 - i. Retail
 - ii. Restaurant / bar / specialty food service
 - iii. Brewery / distillery / winery with an accessory retail component¹⁰
 - Place of amusement
 - v.iv. Personal service⁴⁴
 - vi.v. Day care center
 - vii.vi. Public art / gallery Gallery / arts studio¹²
 - viii.vii. Live/work space
 - ix.viii. Community use space
 - Semi-active accessory uses, such as lobbies and common areas associated with office, hotel, or residential uses, and access to accessory parking.
 - c. Only uses listed above are considered Active Uses.
- 7.8. ____Adaptive Reuse
 - a. The reuse and revitalization of existing buildings, particularly large homes and historically significant buildings, within the VCOD tiers will benefit the general health and welfare of the Newton community by fulfilling stated goals on housing, transportation, sustainability, and historic preservation.

¹⁰ Including this would require the creation of a new use.

⁴⁴-Services associated with personal grooming, personal instruction, and the maintenance of fitness, health, and well-being.

⁴² Including this would require the creation of a new use.

- a. [reserved]13
- b. An adaptive reuse development must comply with the following standards:
 - Submission of a pre-development site survey with existing conditions prepared, stamped, and signed by a registered engineer or land surveyor.
 - ii. No exterior alterations of the building along the Front Elevation except those necessary to comply with applicable Health, Building, and Fire codes.
 - iii. There are no parking requirements.
 - iv. There are no open space requirements.
 - v. Existing building side and rear setbacks that do not meet
 the minimums in Sec. # may remain. Alterations,
 enlargements, or reconstruction within the side or rear
 setbacks are not allowed, except as permitted under
 Section 7.8.
- c. Additional standards for buildings within the VC2 and VC3 districts:
 - i. Constructed prior to 1945 or determined to be historically significant by the Newton Historical Commission.
 - ii. A building must have at least two (2) stories in height.
 - iii. A building may exceed the maximum Building Footprint, up to five-thousand (5,000) square feet along the side and rear elevations set back at least twenty (20) feet from the Front Elevation.
 - iv. Additional height may be added to existing buildings;
 however the total height may not exceed the overall height or number of stories as specified in each VCOD tier.
 - Lots larger than thirty thousand (30,000) square feet are permitted by-right, subject to Site Plan Review.
- d. Additional standards for buildings within the VC1 and MRT districts:
 - i. A building must have at least one-and-a-half (1.5) stories.
 - ii. A building may exceed the maximum Building Footprint by fifty percent (50%) along the side and rear elevations set back at least twenty (20) feet from the front elevation.
 - iii. Multiple buildings on a lot are permitted, subject to Site Plan Review.
- 8-9. Architectural Features
 - The structural and architectural elements which extend outward from a building facade, including Awnings, Canopies, Bays, and

¹³Relaxing or waiving certain requirements for development projects that maintain existing buildings will encourage their reuse. Staff are researching possible regulations.

Version 42.0 Zoning Ordinance Last Update: 5/05/23, 2022

Village Center Overlay District (VCOD)

from a building or other structure<u>- that provides shade and</u> weather protection over a storefront or building entrance.

ш.

Dimensions	
Width of Each Awning	_
Depth (min.)	3 ft
Clearance above Grade (min.)	8 ft
Front Setback Encroachment (max.)	100%
Extension into the public-right of way (max.)	10 ft

iv. Canopy. A wall mounted structure that provides shade and weather protection over a storefront or building entrance.

Dimensions	
Width of Each Canopy (min.)	_
Depth (min.)	3 ft
Clearance above Ground Story (min.)	8 ft
Front Setback Encroachment (max.)	100%
Extension into the public right of way (max.)	3 ft

9.10. Facade Articulation

a. The facadeFront Elevation of any building greater than one hundred (100) feet in width must be divided vertically by a recess or an offset at least seven (7) feet deep and ten (10) feet wide and designed as two (2) or more distinct facades of differing architectural treatment so that the building appears to be multiple buildings. Modifications to the facade of existing buildings are exempt.

40.11. Ground Story Fenestration

- Fenestration must be provided as specified in the Building Standards for each VCOD tier and is calculated as a percentage of the area of the Front Elevation.
- For buildings with ground story Active Use spaces, ground story fenestration is measured between two (2) feet and ten (10) feet above the finished floor of the ground story.

c. For ground story fenestration, glazing must have a minimum sixty percent (60%) Visible Light Transmittance (VLT) and no more than fifteen percent (15%) Visible Light Reflectance (VLR) as

41.12. Building Entrances

indicated by the manufacturer.

- a. For parcels with Street frontage, buildings must have their main entrance from a public-right of way on that Street. For parcels without Street frontage, buildings should have their main entrance on the side wall oriented toward the parking lot provided for the building.
- Multi story buildings Buildings with ground story Active Use spaces
 must have one (1) principal entranceentrances for eachthe Active
 Use space in addition to any principal entrance(s) necessary for
 any upper stories Uses along the Street frontage.
- c. Principal entrances must either be recessed from the plane of the facade, or have a projecting Awning or Canopy, to signal building entry and provide adequate protection from the elements.

12. Roof Features

13. Roof Features

a. Non-habitable architectural features including, but not limited to, mechanical & stairwell penthouses; vents or exhausts; solar panels or skylights; belfries, chimneys, cupolas, parapets, spires, and steeples are permitted on roofs.are permitted on roofs in accordance with Section 1.5.4.A.

43.14. Mechanical Equipment¹⁴

- a. Roof-mounted mechanical equipment must be screened and setback at least ten (10) feet from any buildingthe intersection of the roof and wall plane immediately below. See Section 5.1.9.
 Screening.
- b. Wall-mounted mechanical and/or electrical equipment such as louvers, exhaust equipment, ducts, alarm devices, cable boxes, utility meters, etc. must not be mounted on a Front Elevation.
- c. SiteAll free standing mechanical and/or electrical equipment are prohibited between any Front Lot Line and Front Elevation.

C. Parking Design Standards

Applicability

All development within the VCOD tiers is subject to the provisions below. Where conflicts exist between the Overlay District and the rest of the City of Newton Zoning Ordinance, the Overlay District regulations shall apply.

2. Required Accessory Parking Spaces

- a. There are no vehicular parking minimums within the VCOD.
- b. Bicycle parking must be provided as specified in Sec. #.

⁴⁴-Further refinement will occur through coordination with Inspectional Services.

Version 42.0 Zoning Ordinance Last Update: 5/05/23, 2022

Released: November

Village Center Overlay District (VCOD)

- c. Motor vehicle parking spaces for persons with disabilities may not be shared and must be provided on-site.
- d. Centralized parking facilities must provide signage identifying the permitted users.
- e. Pedestrian access to vehicular parking must be via a paved sidewalk or walkway.
- f. Unbundled Market Rate Parking
 - i. Off-street motor vehicle parking spaces must be rented.

 leased, or sold as a separate option rather than a
 requirement of the rental, lease, or purchase of a
 residential unit or non-residential floor space.
 - ii. Bicycle parking must be provided at no cost or fee to customers, visitors, employees, tenants, and residents.
- 3. Required Number of Accessory Bicycle Parking Stalls

The following standards for accessory bicycle and motor vehicle parking spaces are associated with the use categories permitted in the VCOD tiers:

This section provides an explanation of the dimensional standards for site improvement within the VCOD tiers, defines how to measure certain standards, and provides other requirements and reference information as necessary.

1. Open Space and Public Realm

Telecommunications and data storage facility	=	=
Wholesale business	=	1 per 40,000 sf

- a. <u>Parking Development on lots greater than 30,000 sf must provide</u> Usable Open Space accessible to the public as specified for each VCOD tier.
- Buildings must provide shared Usable Open Space as exterior spaces (patio, roof deck, roof terrace, yard, forecourt, plaza).
- 2. Parking and Driveway
 - a. All parking spaces and structures must be located at or behind any required parking setback as specified for each VCOD tier.
- 3.4. Parking Lot Access
 - Access to parking lots and structures parallel toalong the <u>Primary</u>
 Front <u>ElevationLot Line</u> is prohibited when access along another
 lot line is available.
 - Shared use of parking lots, by multiple uses and/or developments on multiple parcels, is encouraged.⁴⁵
 - c. The sum of the width of a garage door or doors may be no more than 40% of the Front Elevation along any Primary Front Lot Line.
- 4.5. Curb Cuts and Driveways
 - a. A curb cut requires a permit from the City Engineer and must be compliant with all City Ordinances.
 - a-b. Curb cuts are prohibited parallel tealong the Primary Front

 Elevation Lot Line when access along another lot line is available.
 - c. Each lot is limited to one curb cut per Street frontage.
 - b-d. The maximum width of a curb cut and driveway for access to parking lots and structures is as follows:

Access Type	Width (max.)
One-way	<u>12 ft</u>
<u>Two-way</u>	<u>24 ft</u>

- i. The One-lane: 10 ft
- ii. Two lane: 20 ft
- c. Each lot is limited to one curb cut per street frontage.
- e. interior width of a curb cut (between curb stones) may be no wider than the driveway, vehicular entrance, or loading facility it serves.

⁴⁵ Additional regulations are required for shared parking.

- d.f. The grade, cross slope, and clear width of the walkway of a sidewalk must be maintained between the driveway apron and the abutting driveway. The appearance of the walkway (i.e., scoring pattern or paving material) must indicate that, although a vehicle may cross, the area traversed by a vehicle remains part of the pedestrian sidewalk.
- i-g. Curb cuts for driveways shouldmust be at least 20 feet from an unsignalized intersection and at least forty 40 feet from a signalized intersection. 46

6. Parking Placement

- unless otherwise specified, all parking spaces must be located at or behind any required parking setback as specified in the Lot Standards for each VCOD tier.
- Surface No parking spaces are allowed between the Front Elevation and the Primary Front Lot Line.
- 5.7. Parking Lot DesignStall Dimensions
 - a. For vehicular parking stalls, see Section 5.1.8.B and 5.1.8.C.
 - b. Bicycle parking stalls must meet the following standards:
 - i. Size and Layout. Each bicycle parking space must be at least two (2) feet by six (6) feet in size or the minimum required by the manufacturer of a bicycle rack or locker, whichever is more.
 - ii. Access.
 - Areas designed for bicycle parking spaces must have a hard, stabilized surface.
 - b. Bicycle parking spaces must have at least one (1)
 access aisle at least five (5) feet wide to allow room
 for maneuvering. This access aisle must be kept
 free from obstructions.
 - Bicycle parking spaces must be accessible without moving another bicycle or lifting or carrying a bicycle over any steps or stairs.
 - d. Outdoor access routes must be appropriately lighted to allow for safe nighttime use.
 - iii. Weather Protection. When provided, weather protection must be permanent, designed to protect bicycles from rainfall, and provide at least seven (7) feet of clearance above ground level.
 - iv. Bicycle racks must meet the following standards:
 - Be a fixed-in-place stand that is securely anchored to the ground;

⁴⁶ Staff is coordinating with DPW to ensure the appropriate metrics.

- b. Provide support to the bicycle frame, allowing for both wheels to rest upon a stable surface and for the bicycle to stand upright and not fall over without the use of a kick-stand;
- c. Be configured not to block handlebars and baskets and to provide two points of contact for locking the frame and at least one wheel with a user-provided locking device;
- d. Be constructed of materials that resist cutting, rusting, bending, or deformation; and
- e. Be arranged in rows (with bicycles parked side-byside) or in alignment (with bicycles parked end-toend).
- Bicycle lockers must meet the following standards:
 - a. Be securely anchored to the ground;
 - Be configured to provide support to the bicycle, allowing it to stand upright without the use of a kickstand, and
 - Be secured by means of a lockable door or, alternatively, configured internally to allow locking of the frame and at least one wheel with a userprovided locking device.
- Signage. If required bicycle parking is not visible from the street or principal entrance(s), a sign must be posted at the principal entrance(s) indicating the location of the parking.
- Additional standards for Short-Term Bicycle Parking.
 - a. Short-term bicycle parking may be provided in any combination of bicycle racks and bicycle lockers. Racks that are double height or require hanging of a bicycle are prohibited for short-term bicycle parking.
 - Short-term bicycle parking must be provided outside of a principal building and within onehundred (100) feet of the principal entrance of the use served by the parking.
 - Short-term bicycle parking must be at the same grade as the abutting sidewalk or at a location that can be reached by an accessible route from the sidewalk that is a minimum of five (5) feet wide, with no steps and a six percent (6%) slope or less.
 - Bike racks may be installed within the furnishing zone of a sidewalk of an abutting right of way provided, and/or consist of a hoop affixed to a

Village Contag Overlay Di

- parking meter, with approval from the City Engineer.
- e. Short-term bicycle parking serving multiple uses on a single lot, or abutting parcels under the same ownership, may be combined into a single area.
- f. Any required Short-Term Bicycle Parking provided in a structure or under cover must be provided at ground level, free of charge, and clearly marked as bicycle parking.
- viii. Additional standards for Long-Term Bicycle Parking.
 - a. Long-term bicycle parking may be provided through any combination of racks or lockers.
 - b. Long-term bicycle parking must be provided in a
 well lit, secure location within the same building as
 the use the parking is intended to serve or within an
 accessory structure located within two-hundred
 (200) feet of the principal entrance of the building.
 - c. To provide security, long-term bicycle parking must either be:
 - i. In a locked room;
 - ii. In an area that is enclosed by a fence with a locked gate. The fence must be either eight (8) feet high, or be floor-to-ceiling;
 - iii. Within view of an attendant or security guard;
 - iv. In an area that is monitored by a security camera; or
 - v. In an area that is visible from employee work areas.
 - d. All required long-term bicycle parking spaces must be designed to provide continuous shelter from the elements.
 - e. Long-term bicycle parking serving multiple uses may be combined into a single area or accessory structure.
 - f. Where long-term bicycle parking is located adjacent to motor vehicle parking or loading facilities, a physical barrier must be provided to prevent potential damage to bicycles by other vehicles.
 - g. When twenty (20) or more long term bicycle parking spaces are provided, a minimum of ten percent (10%) of the spaces must be three (3) feet by eight (8) feet in size.

h. Up to twenty five (25%) of long term bicycle parking
 space may be provided as racks that require
 bicycles to be hung or lifted off the ground or floor.

ix. Alternative Compliance. The provisions of this Section #
may be modified by Special Permit to accommodate
alternative technologies and methods for providing bicycle
parking so long as the Special Permit Granting Authority
makes a finding that the alternatives provide equal or
greater benefits to bicycle users.

8. Screening

- a. Parking lots must be separated from the public right of way by a building or landscaped strip with a depth equal to screening within the parking setback as specified in the Lot Standards for each VCOD Tier. The landscaped strip must adhere to Screening shall consist of one or a combination of the following design standards (Fig. #¹⁷)::
 - i. The A landscape strip must runat least five (5) feet in width, running the full length of the parking lot perimeter along the right-of-way, excluding curb cuts and driveways. (Fig. #).
 - ii.a. The landscape strip must be planted with trees, shrubs, perennials, native grasses, and/or other planting types that provide screeninga buffer from the public right-of-way.
 - Deciduous shade trees must be planted for every 20 feet of landscape strip length, spaced linearly and parallel to the public right-of-way.

 Shade trees must be a minimum of two (2) inches in tree caliper when planted.
 - iv. An optional low fence or pedestrian wall 24" to 42" in height may be installed behind the landscape strip and setback up to 24" from the adjacent parking lot to accommodate for car overhang.
 - ii. A wall, barrier, or fence of uniform appearance. Such a wall, barrier, or fence may be opaque or perforated provided that not more than fifty (50) percent of the face is open. There shall be a landscaped strip with a minimum width of 3 feet between the base of the wall, barrier, or fence and right of way. The wall, barrier, or fence shall be at least 3 feet and not more than 6 feet in height.
- b. The required screening shall be located so as not to conflict with any corner visibility requirements or any other City ordinances.
 Such screening may be interrupted by entrances or exits.

¹⁷ Figure to be added.

- c. Every effort shall be made to retain existing trees.
- <u>✓.d.</u> The use of stormwater management techniques such as rain gardens and bioswales is encouraged in landscape strips.
- e. Outdoor parking facilities containing 20 stalls or more must comply with the requirements in Sec. 5.1.9.B.
- b.f. Parking lots in the VC1, VC2, and VC3 districts abutting properties in any Residential Districts along any side or rear lot line must be screened. See Section 5.1.9., per the standards above Screening.
- e.g. Parking lot landscape strips, parking lot islands, landscape buffers, and other landscaped areas should utilize Low-Impact-Development (LID) practices consistent with state law to treat and discharge stormwater.
- d. At least ten percent (10%) of paved parking let areas, inclusive of driveways, must be landscaped. Landscape strips along public rights-of-way and landscape buffers abutting Residential Districts are excluded from the calculation of the parking let area.
- Lighting. Lighting shall comply with the provisions of the Light Trespass ordinance in Chapter 20 Sections 20-23 - 20-49.
- 6.10. Loading
 - a. For off-street loading requirements, see Section 5.1.12.
 - a.b. Access to loading docks and areas parallel toalong the Primary Front Elevation Lot Line is prohibited.
 - b.c. Outdoor loading facilities, including all docks and areas used for the storage and staging of goods or materials, that are visible from a public street, public space, or abutting properties in any Residential Districts must be screened from view. See Section 5.1.9. Screening.
- 7.11. Service Areas
 - a. Buildings containing five or more residential units must provide private trash and recycling pick up.
 - Trash collection, trash compaction, recycling collection and other similar service areas must be fully enclosed within a building or located to the side or rear of the buildings.
 - b.c. Outdoor service areas are not permitted along any Primary Front Elevation Lot Line.
 - d. Outdoor service areas that are visible from a public street, public space, or abutting properties in any Residential Districts must be fully screened from view. See Section #.
- 12. Parking Relief
 - a. 5.1.9. Screening. The Planning Board is the Special Permit Granting Authority for all parking relief within the VCOD tiers.
 - e.b.In particular instances, a Special Permit may be granted to allow for exceptions to this Sec. # if it is determined that literal compliance is impracticable due to the nature of the use, or the

Version 42.0 Zoning Ordinance

Released: November

Last Update: 5/05/23, 2022

Village Center Overlay District (VCOD)

location, size, width, depth, shape, or grade of the lot, or that such exceptions would be in the public interest, or in the interest of safety, or protection of environmental features.

2.7. Design Guidelines

The Director of Planning and Development shall adopt, and periodically amend as deemed necessary, design guidelines. These guidelines provide direction, not requirements, for the design of new development within the VCOD tiers resulting in a cohesive pattern over time. The intent is to define expectations for new development while allowing for flexibility and fostering high quality design.

2.8. Allowed Uses

Uses permitted in buildings with the VCOD tiers are described below.

A. Permitted Uses

- The use of real property is subject to the provisions of Article # Use Regulations.
- 2. Uses are permitted as specified in Sec. #.
- 3. Use categories not expressly authorized are prohibited.
- Uses permitted by Special Permit require additional development review in accordance with Article #.

B. Permitted Accessory Uses

- The use of real property is subject to the provisions of Article # Use Regulations.
- 2. Accessory Uses are permitted as specified in Sec. #.
- 3. Accessory Uses not expressly authorized are prohibited.
- 4. Accessory Uses permitted by Special Permit require additional development review in accordance with Article #.

2.9. Parking Requirements

A.1. Applicability

All development within the VCOD tiers is subject to the previsions below. Where conflicts exist between the Overlay District and the rest of the City of Newton Zening Ordinance, the Overlay District regulations shall apply. The following previsions of Section 5.1. Parking and Loading do not apply within the VCOD tiers:

- 1. Section 5.1.2. Applicability
- 2. Section 5.1.3. General Regulations
- 3. Section 5.1.4. Number of Parking Stalls
- 4. Section 5.1.5. Administration
- 5. Section 5.1.6. Location of Required Accessory Parking Facilities
- B.1. Required Accessory Parking Spaces
 Bicycle and vehicular parking must be provided as specified in Sec. #,
 except as follows:
- 1. Ground story non-residential uses are exempt from the requirements of Sec. #.

 2. The first 5,000 square feet of gross leasable floor area for Upper Story non-residential uses are exempt from any minimum, requirements in Sec. #.
 - 3. Parking may be shared between uses on the same lot, contiguous lots and between buildings within 500 linear feet as measured along the street in accordance with the following:
 - a. Accessory parking spaces may be shared between uses on the same lot or adjacent lots as long as the buildings for which the parking will be shared are within 500 feet of each other.

Version 42.0 Zoning Ordinance
Last Update: 5/05/23, 2022

Released: November

Village Center Overlay District (VCOD)

- Motor vehicle parking spaces for persons with disabilities may not be shared and must be provided on-site.
- c.a.Contralized parking facilities must provide signage identifying the permitted users.
- d. Pedestrian access to off-site vehicular parking must be via a paved sidewalk or walkway.
- A lease, recorded covenant, or other comparable legal instrument guaranteeing long term use of the site must be provided to the review board or Commissioner of ISD and executed and filed with the Registry of Deeds.

C. Vehicular Parking Types

Motor vehicle parking may be provided as off-street surface parking spaces, structured parking spaces, and on-street parking spaces.

D.a. Unbundled Market Rate Parking

- 1.i. Off-street meter vehicle parking spaces must be rented, leased, or sold as a separate option rather than a requirement of the rental, lease, or purchase of a recidential unit or non-recidential floor space.
- 2.i. Bicycle parking must be provided at ne cost or fee to customore, visitors, employees, tenants, and residents.

E.1. Parking Relief

- 1. Relief from the number of required accessory parking spaces in Sec. #requires a Special Permit from the Planning Board.
- Review Criteria. In its discretion to approve or deny a Special Permit
 authorizing relief from the parking standards of Sec. #, the Special Permit
 Granting Authority must find that the application meets the following
 criteria:
 - a. The supply and demand of on-street parking in the neighborhood, as determined through a parking study.
 - Mobility management programs and services provided by the applicant to reduce the demand for parking.
 - c. That parking provided in excess of any maximum permitted does not result in the increase in impervious lot area.

F. Required Number of Accessory Parking Stalls²⁴

The following standards for accessory bicycle and motor vehicle parking spaces are associated with the use categories permitted in the VCOD tiers:

Use Category Bicycle Parking Motor Vehicle Parking (min.)²²

²⁴ This simplified parking table will be replaced by a comprehensive parking table in the next draft. Not all uses within a given category will have the same parking requirements.

Formatted: Not Highlight

²²-Staff are exploring reduced parking requirements tied to access to the Green Line and Commuter Rail.

Released: November

Residential Uses (multi-family)	Required	1 per unit
Commercial Uses	Required	Ground floor - exempt, 5,000 sf of Upper Floor - exempt, 1 per 700 sf
Civic/Institutional Uses	Required	1 per 1000 sf

÷

A.2.9. Administration

1. Adaptive Reuse a. [reserved]

A. Special Permit Review

- 1. A special permit application shall be submitted and reviewed in accordance with Section 7.3, except in lieu of the criteria in 7.3.3.C, the City Council shall not approve any application for a special permit in the VCOD unless it finds, in its judgment, that the proposal meets all the following criteria:
 - The proposed development is consistent with the City's
 Comprehensive Plan and existing policies and plans established by the City.
 - ii. The proposed development is consistent with the intent and purposes of the VCOD.

B. Site Plan Review

- Application. Whenever Site Plan Review is required under the provisions
 of the VCOD an electronic application shall be submitted in accordance
 with forms and instructions provided by the Planning and Development
 Department.
 - i. Fee. [Reserved]
- Review. Site Plan Review shall be conducted by the Planning and Development Board.
 - i. Timeline. [Reserved]
- 3. Grant of Permit. Site Plan approval shall be granted upon determination by the Planning and Development Board that the following conditions have been satisfied. The Planning and Development Board may impose reasonable conditions, at the expense of the applicant, to ensure that these conditions have been satisfied.
 - i. The Applicant has submitted the required fees and information as set forth in the City's requirements for Site Plan Review; and
 - ii. The project as described in the application meets the development standards set forth in Section #.
- 4. Site Plan approval shall be granted by a majority vote of the Planning and Development Board.
- 5. Approval shall be good for a period of three years.
