### **City Council**

2022-2023

#### City of Newton

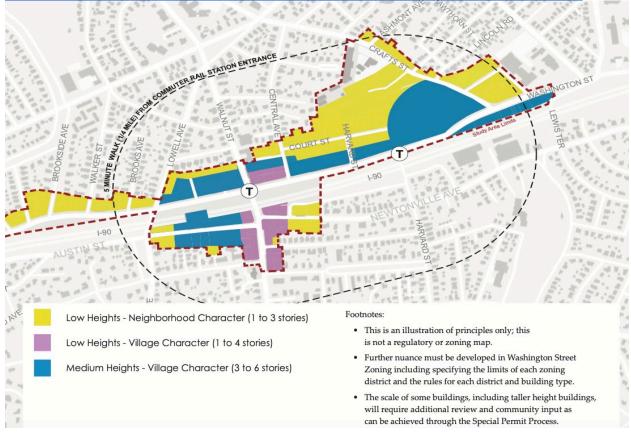

To: Zoning & Planning Committee From: Tarik J. Lucas, Councilor At-Large, Ward 2 Date: August 4th, 2023 Subject: Amendments to Village Center Zoning

1. Change all parcels in the village of Newtonville on Walnut Street south of the Massachusetts Turnpike that are proposed in the overlay district as VC3 to VC2.

The reason for this change is simple. The densest and tallest buildings in Newtonville should be reserved for certain parcels along Washington Street. Allowing 5-story building along a narrow and small street will create a "canyon-like effect". If a developer wishes to build 5-stories or taller, that should require a special permit. Also, the Washington Street Vision Plan, which was adopted in December 2019 and is part of Newton's Comprehensive Plan, calls for a 4-story maximum building height on this section of Walnut Street. I have provided a link to the Washington Street Vision Plan, and a map from the vision plan which states a 4-story maximum building height on Walnut Street.
